Career Objective for a High School Student (with zero experience)

View This Example:

High School Resume Example

If you do not have professional experience or a college degree, you may be hoping to land an entry-level job, apprenticeship, or internship.

In your Career Objective, **you'll need to emphasize general traits about your character, personality, and work ethic** that would make you a valuable employee.

You can do that by splitting the Objective for a Resume into three sentences:

1st: **Self introduction via mentioning your strongest (provable) traits**

2nd: **Telling the hiring manager which role you want to fill**

3rd: **Emphasizing that you are reliable, and have company goals in mind**

Here's a short list of school activities and their associated character traits you can get some ideas from:

School Activity:	Associated Character Traits:
Student Government:	Leadership, Management, Organization
Sports:	Team Player, Disciplined, Strategic

Theater Arts:	Public Speaking, Presentation Skills, Interpersonal Skills
Various Clubs:	Engaged, Active, Friendly, Enthusiastic
Academics:	Analytical, Hard Working, Fast Learner

We need to use this course as an example of your learning:

Team building, Problem solving, Innovation, Creativity, Critical Thinking, Values
